

Nordic Children Conference

Copenhagen 23-25 April 2025

Program Conference

Over the next three days, we will gather in various locations across Copenhagen to exchange knowledge, share experiences, and engage in discussions.

The program features insightful presentations, hands-on workshops, and updates from across the Nordic region. Highlights include keynote talks on children's faith development, practical approaches to ministry, and creative methods for engaging young minds in the church.

Everyone who works with children in the Church are welcome to attend the Conference. We look forward to meaningful conversations and some Danish "hygge" along the way.
